Terry Scull
Quantity Surveyor

Andrew Moss
Construction Manager

Matt Casey
D&B Manager

Steve Bass
SHE Manager

The Project:

The project is an 2 storey extension to the existing school to provide much needed classroom space, internal staircase and lift along with improved ancillary rooms and circulation space.

Our aim is to carry out and complete the project with as little impact on the school, pupils and residents as possible, and are due to have the extension ready for the new school term in September 2015.

What will it look like?

Below is an impression of the completed building.

(Note: There are still a couple of queries to do with planning so the exact finish may be different to what is shown)

What have we done?

We have set up the compound at the end of Brantwood Road, and the haul road round the back of the school so that we do not impact on the school's daily activities too much as work progresses.

We have dug out and poured the foundations and started the blockwork to the main building.

We have also been having various meetings/discussions with trades/suppliers about the forthcoming operations along with co-ordinating our works with the school directly.

The foundations and sub-structure

The next month:

We now move into the main building element, where the structure starts to really take shape.

The pre-cast ground floor goes in early February and we will be having various deliveries during the day, and have planned these to occur at non-busy times. (See below)

The main blockwork will then start to go up, along with the steel work that supports the building over the next few weeks.

We will still be planning in the background, looking ahead to the pre-cast first floor installation (Early March) and the roof (Are we already thinking about that?).

Deliveries:

We will also plan to have deliveries outside of the busy periods but there can always be the odd "rogue" lorry/van arrive, if this does happen the school and residents will always take priority and we will try to keep any disruption to a minimum.

If anything does cause anyone issues, please feel free to contact us on the numbers below.

Considerate Constructors

All Kier projects are registered with the Considerate Constructors Scheme.

This is a scheme that promotes reducing impact of construction sites on the local community and surrounding area. As part of this process, we would welcome any comments you may have - please contact our site manager, Warren Robinson on 07789 397401. Alternatively, you may call the scheme hotline 0800 783 1423 if you do not wish to speak to us direct.

If you have any comments/suggestions, please feel free to contact on the mobile number above or via email warren.robinson@kier.co.uk

If you wish to receive this newsletter by email in the future please email me at warren.robinson@kier.co.uk
