Terry Scull
Quantity Surveyor

Andrew Moss
Construction Manager

Matt Casey
D&B Manager

Steve Bass
SHE Manager

The Project:

The project is a 2-storey extension to the existing school to provide much needed extra classroom space, and internal staircase and lift along with improved ancillary rooms and circulation space.

Our aim is to carry out and complete the project with as little impact on the school, pupils and residents as possible, and are due to have the extension ready for the new school term in September 2015.

What have we done?

Wow! What a month we have had; a nice bit of weather has really pushed on the project.

The Roofs to both sections are complete and we have also installed the solar panels to the roof. We have completed the internal walls and the plastering is nearly finished. The final fix of the services elements have started and the external cladding has started.

We have also been planning our "escape plan" so that we don't impact on anyone too much 😊

The next month:

The next month is really important to completing the project for the summer intake; as lots of elements have to click into place at the same time to ensure this happens.

Some (but not all the items) we will be finishing this month are: plastering, external cladding, removing the scaffolding, external works, internal final fixing. (A quiet month then! Phew!)

We will also be doing the final planning for the removal of the temporary classroom from the front field that happens on Friday 24th July. (Portakabin should be writing to you all separately about this)

Other info: Recycling/Energy use “In the Green”

*As part of our internal and external Key Performance Indicators (KPIs) we must recycle a certain amount of our waste, and also keep our energy usage below set targets. To date we have recycled **74%** of our waste and our water and energy use is below our set targets so we are doing well at present.*

Deliveries:

We will always plan to have deliveries outside of the busy periods, but there can always be a “rogue” lorry/van arrive. If this does happen the school and residents will always take priority and we will try to keep any disruption to a minimum.

If anything does cause anyone issues, please feel free to contact us the numbers below.

Considerate Constructors:

All Kier projects are registered with the Considerate Constructors Scheme.

This is a scheme that promotes reducing the impact of construction sites on the local community and surrounding area. As part of the process, we would welcome any comments you may have-please contact the Site Manager Warren Robinson on 07789 397401. Alternatively you may wish to call the scheme hotline on 0800 783 1423 if you do not wish to speak to us direct.

If you have any comments/suggestions, please feel free to contact me on the mobile number above or via email:
