

Wembdon St George's Church School

Our Learning in Maths 2022-2023

Wembdon St George's Church School Curriculum Intent:

When teaching mathematics at Wembdon St George's, we intend to provide a curriculum which caters for the needs of all individuals and sets them up with the necessary skills and knowledge for them to become successful mathematicians. The focus of our curriculum is for pupils to, know more, remember more and be able to do more in familiar and unfamiliar contexts. This enables children to make connections between their developing knowledge of new concepts, prior learning, and helps them to relate to real-life situations in the world around them. A wide range of mathematical resources are used, and pupils are taught to show their workings in a concrete, pictorial and abstract form wherever suitable. They are taught to explain their choice of methods and develop their mathematical reasoning skills. We encourage adaptability and acceptance that struggle is often a necessary step in learning which enables our pupils to be successful.

Wembdon St George's Church School Curriculum Implementation:

At Wembdon, we follow the National Curriculum but use the White Rose curriculum progression document to help support class teachers underpin their planning and teaching. This enables them to carefully plan for an appropriate balance of pictorial and concrete resources, alongside abstract problems, to ensure that all pupils are able to progress within individual lessons, and across a sequence, using mastery approaches. We have adopted a thematic interpretation of Rosenshine's principles of instruction where teachers review materials, use targeted questioning, appropriate sequences, concepts and modelling, and a variety of stages of practice to help reinforce previously taught, and new content. Our curriculum structure and sequences, and our pedagogical approaches are adapted to be ambitious to enable us to meet the needs of pupils with SEND. Ongoing formative assessment practices identify any learning gaps within individual lessons to inform daily feedback and catch-up sessions, allowing all pupils to be ready for the next lesson in the sequence. Summative assessment, and subsequent analysis, is used appropriately to inform planning and teaching. At Wembdon, we recognise the importance of core number facts, these are taught using: web-based programmes, daily retrieval practice and explicit teaching. The classroom environment effectively supports pupils to develop their mathematical independence. This includes visual models, vocabulary, and common misconceptions.

Wembdon St George's Church School Curriculum Impact:

Class teachers are expected to make regular formative evaluations of learning that determine whether pupils are achieving. Teachers seek the advice of colleagues and leaders where individuals, or groups of pupils, are not yet achieving these expectations. Through termly moderation, staff are able to identify children who are not making expected progress, compare groups of children from different classes and ensure that classes are consistent across a year group and school. Regular CPD is provided for all staff during the year and specific CPD/support is given when a need is identified. Summative assessment is used by the Maths Lead and class teachers to measure progress and the data is then used to plan teaching and learning and deliver targeted interventions.

Wembdon St George's

Calculation Policy

Autumn 2022

Curriculum intent: To ensure the children have the skills and knowledge to be able to access real life problems with a zest for enquiry and confidence and through collaboration.

Page 29- Year 6

This policy has been designed to teach children through the use of concrete, pictorial and abstract methods. This calculation policy should be used to support children to develop a deep understanding of number and calculation and acts as a guide for the teaching progression of skills.

Background

This policy has been developed by Maths leads with a specific interest in the use of bar methods to develop number awareness and fluency.

The policy only details the strategies; teachers must plan opportunities for pupils to apply these; for example, when solving problems, or where opportunities emerge elsewhere in the curriculum.

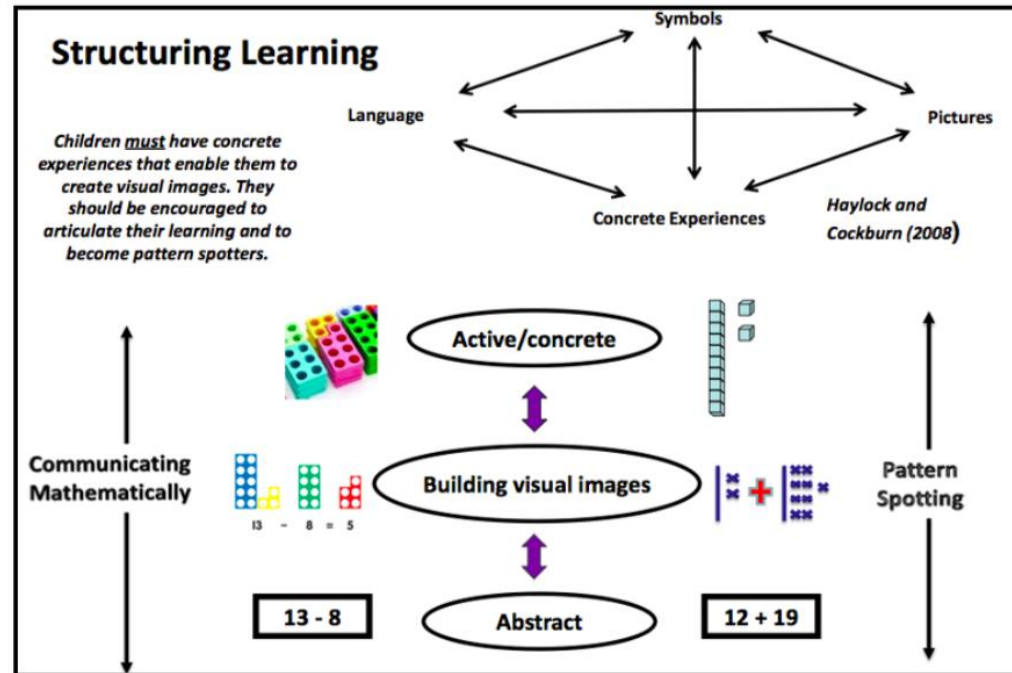

Using the concrete-pictorial-abstract approach:

Children develop an understanding of a mathematical concept through the three steps (or representation) of concrete-pictorial-abstract approach. Reinforcement is achieved by going back and forth between these representations.

Concrete representation The enactive stage - a pupil is first introduced to an idea or a skill by acting it out with real objects. This is a 'hands on' component using real objects and it is the foundation for conceptual understanding.

Pictorial representation The iconic stage - a pupil has sufficiently understood the hands-on experiences performed and can now relate them to representations, such as a diagram or picture of the problem.

Abstract representation The symbolic stage - a pupil is now capable of representing problems by using mathematical notation, for example: $12 \div 2 = 6$.

Guidance

This document provides guidance and examples for key objectives for each year group but is not to be followed as a complete planning aid as not all objectives are exemplified.

Reception

Addition

Explore part part whole relationship

They develop ways of recording calculations using pictures

Making 6

Using the ten frame to support addition of single digits – counting all/combining two groups

Solving problems using concrete and pictorial images.

Sara has 2 apples.
 Jon has 5 apples.
 How many apples do
 they have altogether?
 How many more
 apples does Jon have
 than Sara?

Subtraction

Taking away after counting out practical equipment. .
 Children would be encouraged to physically remove
 these using touch counting.

By touch counting and dragging in this way, it allows
 children to keep track of how many they are removing
 so they don't have to keep recounting. They will then
 touch count the amount that are left to find the
 answer.

Those who are ready may record their own
 calculations

--

donut

donuts

$$8 - 4 = \underline{\quad}$$

0	1	2	3	4	5	6	7	8	9	10
---	---	---	---	---	---	---	---	---	---	----

Using the ten frame to support subtraction by taking away

Peter has 5 pencils and 3 erasers. How many more pencils than erasers does he have?
Solving problems using concrete and pictorial images.

Multiplication

Children will experience equal groups of objects.

They will work on practical problem solving activities involving

There are 6 pairs of socks.
How many socks are there altogether?

Division

Half is...

5

Year 1

Addition

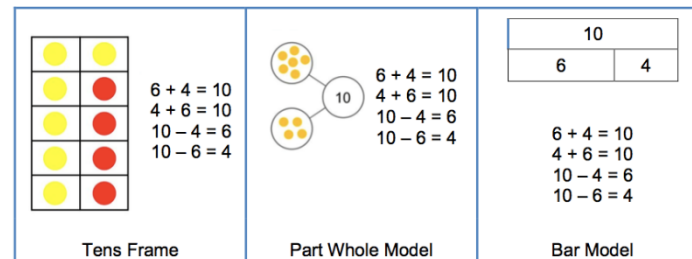

Joining two groups and then recounting all objects using one-to-one Correspondence
(lots of practice making 10 and numbers to 10 e.g. $6 + 4 = 10$ or $3 + 5 = 8$)

$$3 + 4 = 7$$

Learn number bonds to 20 and demonstrate related facts

Teach addition and subtraction alongside each other as pupils need to see the relationship between the facts.

$$\begin{array}{rcl} 8 & + & 4 & = & 12 \\ 4 & + & 8 & = & 12 \end{array}$$

This is a family of addition and subtraction facts.

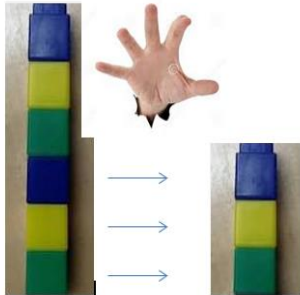

$$\begin{array}{rcl} 12 & - & 8 & = & 4 \\ 12 & - & 4 & = & 8 \end{array}$$

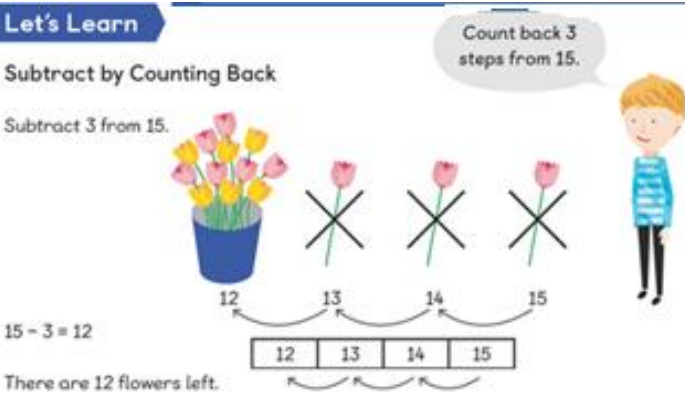

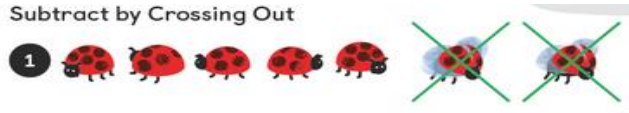

Add and subtract one digit numbers and two digit

$$8 + 1 = 9$$

numbers to 20, including zero	
<p>Bridging 10</p> <p>Use ten frames, Singapore bars, egg boxes and number lines to practice.</p> <p><i>Chn should start with the larger number and add the smaller number seeing what makes ten and what is left over.</i></p>	 <p>$6 + 6 = 12$</p> <p>Make 9 in one and 3 in the other. Take one from the 3 to make the 9 into a ten....$10 + 2 = 12$</p>
Subtraction	
<p>Taking away should begin with physical objects: objects, cubes, Dienes etc</p>	<p>$6 - 3 = 3$</p> 

<p>Subtraction by counting back</p>	<p>Let's Learn</p> <p>Subtract by Counting Back</p> <p>Subtract 3 from 15.</p> <p>Count back 3 steps from 15.</p>  <p>$15 - 3 = 12$</p> <p>There are 12 flowers left.</p>
<p>Subtracting a single digit number from a single digit number and a single digit from a two digit by crossing out pictures</p>	<p>Subtract by Crossing Out</p> <p>1</p>  <p>$7 - 2 = 5$</p> <p>5 ladybirds are left.</p> <p>$7 - 2$</p>
<p>Subtracting using the part part whole (include problem solving with missing digits).</p> <p>$? - 5 = 2$</p>	 <p>How many boats are not red?</p> <p>$7 - 5 = 2$</p> <p>2 boats are not red.</p>
<p>Subtraction by subtracting from 10</p> <p><i>Children subtract from 10 and not from ones</i></p>	<p>$14 - 8 = ?$</p>

Let's Learn

Subtract from 10

$$14 - 8 = ?$$

Put 10 in a box ↓

$$14 - 8 = 6$$

Sam has 6 doughnuts left.

When subtracting using Dienes children should be taught to regroup a ten rod for 10 ones and then subtract from those ones

$$20 - 4 = 16$$

Subtracting multiples of 10

Using the vocabulary of 1 ten, 2 tens etc alongside 10, 20, 30 is very important here as pupils need to understand that it is a 10 not a 1 that is being taken away

Multiplication

Counting in multiples of 2, 5 and 10 from zero

Children should count the number of groups on their fingers as they are skip counting.

2 4 6 8

4 groups of 2 = 8

$$2 \times 4 = 8$$

2

two

2

two

2

two

2

two

When moving to pictorial/written calculations the vocabulary is important

This image represents two groups of 4 or 4 twice

Solving multiplication
problems using repeated
addition

How many apples are
there altogether?

$$3 + 3 + 3 = 9$$

Division

Pupils should be taught to divide through working practically and the sharing should be shown below the whole to familiarize children with the concept of the whole.

The language of whole and part part should be used.

$$10 \div 2 = 5$$

Part	Part
Whole	

$$8 \div 4 = 2$$

1 There are 8 cans.

There are 4 boxes of 2 cans.

Year 2

Addition	
Using concrete objects and pictorial representations to add a 2 digit number with a 1 digit number.	

tens	ones
2	5
+	3
<hr/>	
	8
<hr/>	

Using concrete objects and pictorial representations to add a 2 digit number and 10s number.

Step 1 Add the ones.
3 ones + 4 ones = 7 ones

tens	ones
2	3
+ 1	4
<hr/>	
	7

Step 1 Add the ones.

tens	ones
1	9
+ 2	0
<hr/>	
	9

Step 2 Add the tens.
1 ten + 2 tens = 3 tens

tens	ones
1	9
+ 2	0
<hr/>	
3	9

$$19 + 20 = 39$$

Using concrete objects and pictorial representations to add a 2 digit numbers.

Step 2 Add the tens.
2 tens + 1 ten = 3 tens

	tens	ones
	2	3
+	1	4
	3	7

$$23 + 14 = 37$$

Adding with renaming

Add 15 and 18.

Use  to help you add.

Step 1 Add the ones.
5 ones + 8 ones = 13 ones
Regroup the ones.
13 ones = 1 ten and 3 ones

	tens	ones
	1	5
+	1	8
	1	3

Step 2 Add the tens.
1 ten + 1 ten + 1 ten = 3 tens

	tens	ones
	1	5
+	1	8
	1	3
+	2	0
	3	3

$$15 + 18 = 33$$

Using concrete objects and pictorial representations to

$7+3+2 =$ leads to $10 + 2 =$

add a 3 single digit numbers.

Using the bar to find missing digits.
It is important for children to use the bar in this way to encourage the use of it to aid with problem solving.

Helen has 14 breadsticks. Her friend has 17. How many do they have altogether?

Subtraction

Using concrete objects and pictorial representations to subtract a 1 digit number from 2 digit number.

Step 1 Subtract the ones.
 $8 \text{ ones} - 3 \text{ ones} = 5 \text{ ones}$

tens	ones
2	8
-	3
	5

Step 2 Subtract the tens.

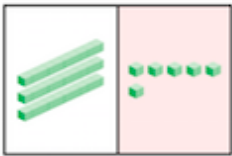

tens	ones
2	8
-	3
2	5

$$28 - 3 = 25$$

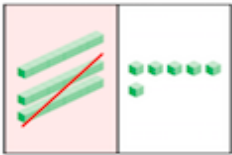

Using concrete objects and pictorial representations to subtract a 10s number from 2 digit number.

Step 1 Subtract the ones.

tens	ones
3	6
- 2	0
<hr/>	
	6

Step 2 Subtract the tens.
3 tens - 2 tens = 1 ten

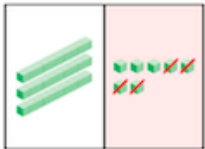

tens	ones
3	6
- 2	0
<hr/>	
1	6

36 - 20 = 16

Using concrete objects and pictorial representations to subtract a 2 digit number from 2 digit number.

Subtract 24 from 37.

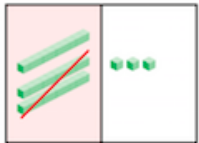

Step 1 Subtract the ones.
7 ones - 4 ones = 3 ones

tens	ones
3	7
- 2	4
<hr/>	
	3

Use  to help you subtract.

Step 2 Subtract the tens.
3 tens - 2 tens = 1 ten

tens	ones
3	7
- 2	4
<hr/>	
1	3

37 - 24 = 13

Recognise and use the inverse relationship between

?

addition and subtraction	23	53	Use this to check calculations and solve missing number problems.
	23		

Multiplication

Skip counting in multiples of 2, 3, 5, 10 from 0

Recall and use multiplication facts for the multiplication tables 2, 5 and 10.

...	$1 \times 5 = 5$
...	$2 \times 5 = 10$
...	$3 \times 5 = 15$
...	$4 \times 5 = 20$
...	$5 \times 5 = 25$
...	$6 \times 5 = 30$
...	$7 \times 5 = 35$
...	$8 \times 5 = 40$
...	$9 \times 5 = 45$
...	$10 \times 5 = 50$

I can use multiplication (x) and equal (=) sign when writing out my times tables.

Multiplication is commutative

Pupils should understand that an array can represent different equations and that, as multiplication is commutative, the order of the multiplication does not affect the answer.

How many dots are there?

$$2 \times 5 = 10$$

$$5 \times 2 = 10$$

2×5 is equal to 5×2 .

$$12 = 3 \times 4$$

$$12 = 4 \times 3$$

Solve multiplication problems in context using arrays and repeated addition

$$3 \times 5 = \square$$

$$5 \times 3 = \square$$

$$3 + 3 + 3 =$$

How many apples are there altogether?

$$3 + 3 + 3 = 9$$

Division

Recall and use division facts for the multiplication tables 2, 5 and 10.

$10 \div 10$	•	•	5
$20 \div 10$	•	•	7
$70 \div 10$	•	•	2
$50 \div 10$	•	•	6
$60 \div 10$	•	•	1
$100 \div 10$	•	•	10

Solve division problems in context using concrete objects by sharing

There are 18 sausages.

There are 9 sausages on each plate.

$$18 \div 2 = 9$$

Solve division problems in context using arrays

I can solve division as grouping.

Put 10 buns in groups of 2.
How many plates are there?

Put into groups of 5.
There are groups.

I can use the inverse.

This should be taught alongside both multiplication and division.

Make a family of multiplication and division facts.

$$2 \times 10 = 20 \quad \text{—————} \quad 20 \div 10 = \square$$

$$10 \times 2 = 20 \quad \text{—————} \quad 20 \div 2 = \square$$

Year 3

Addition

Add two three digit numbers.

Children need to use equipment first to support their understanding of place value.

Children to word gradually to three digit + three digit starting without carrying and gradually moving towards carrying.

$$432 + 521 =$$

Step 1 Add the ones.
2 ones + 1 one = 3 ones

	h	t	o
	4	3	2
+	5	2	1
			3

Step 2 Add the tens.
3 tens + 2 tens = 5 tens

	h	t	o
	4	3	2
+	5	2	1
		5	3

Step 3 Add the hundreds.
4 hundreds + 5 hundreds = 9 hundreds

	h	t	o
	4	3	2
+	5	2	1
	9	5	3

$$432 + 521 = 953$$

There are 953 flowers altogether.

$$236 + 345 =$$

	h	t	o
	2	3	6
+	3	4	5
			1

Step 2 Add the tens.
 $1 \text{ ten} + 3 \text{ tens} + 4 \text{ tens} = 8 \text{ tens}$

	h	t	o
	2	3	6
+	3	4	5
		8	1

Step 3 Add the hundreds.
 $2 \text{ hundreds} + 3 \text{ hundreds} = 5 \text{ hundreds}$

	h	t	o
	2	3	6
+	3	4	5
	5	8	1

$$236 + 345 = 581$$

Using the bar to find missing digits. It is important for children to use the bar in this way to encourage the use of it to aid with problem solving.

Bar Model to support understanding of problem solving:

A man sold 230 balloons at a carnival in the morning. He sold another 86 balloons in the evening. How many balloons did he sell in all?

Subtraction	

Subtract up to 3 digits from 3 digits.

Very important for children to use dienes equipment along with a place value chart to support.

Only when secure with the method should exchanging be introduced.

Subtract 723 from 975.

Step 1 Subtract the ones.
5 ones - 3 ones = 2 ones

	h	t	o
	9	7	5
-	7	2	3
			2

Step 2 Subtract the tens.
7 tens - 2 tens = 5 tens

	h	t	o
	9	7	5
-	7	2	3
	5	2	

Step 3 Subtract the hundreds.
9 hundreds - 7 hundreds = 2 hundreds

	h	t	o
	9	7	5
-	7	2	3
	2	5	2

975 - 723 = 252

Step 2 Regroup 1 hundred into 10 tens.
Subtract the tens.
11 tens - 6 tens = 5 tens

	H	T	O
	5	2	0
-	2	6	9
	3	5	1

Step 3 Subtract the hundreds.
4 hundreds - 2 hundreds = 2 hundreds

	H	T	O
	5	2	0
-	2	6	9
	3	5	1

520 - 269 = 251

Using the bar to find missing digits.

It is important for children to use the bar in this way to encourage the use of it to aid with problem solving.

315	
185	?

$$315 - 185 = ?$$

$$185 + ? = 315$$

?	
185	315

$$185 + 315 = ?$$

$$? - 185 = 315$$

Multiplication

Children should be able to recall the 2, 5, 10, 3, 4 and 8 times tables.

Multiply a two digit number by a one digit.

Let's Learn

- 1 There are 4 groups of 23 fish.
How do we multiply 23 by 4?

4 ones \times 3 = 12 ones
12 ones = 1 ten 2 ones

Step 1 Multiply the ones by 4.

	t	o
	2	3
\times		4
	1	2

	<div><div><div><div><div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></</div>
--	--

$$13 \div 4 = 3 \text{ Remainder } 1$$

Dividing using short division.

Once children are secure with division as grouping and demonstrate this using number lines, arrays etc., **short division** for larger 2-digit numbers should be introduced, initially with carefully selected examples requiring no calculating of remainders at all. Start by introducing the layout of short division by comparing it to an array.

Remind children of correct place value, that 69 is equal to 60 and 9, but in short division, pose:

- How many 3's in 6? = 2, and record it above the **6 tens**.
- How many 3's in 9? = 3, and record it above the **9 ones**.

Once children demonstrate a full understanding of remainders, and also the short division method taught, they can be taught how to use the method when remainders occur within the calculation (e.g. $72 \div 3$), and be taught to 'carry' the remainder onto the next digit.

Using the bar to aid the solving of division problems.

Four children bought a present for £28. They shared the costs equally. How much did each child pay?

Year 4

Addition

Adding numbers with up to 4 digits.

Again this should start with the children using dienes to support them with lots of discussion about the value of each digit.

$$\begin{array}{r} 2314 \\ + 4240 \\ \hline 6554 \end{array}$$

- Step 1 Add the ones.
4 ones + 0 ones = 4 ones
- Step 2 Add the tens.
1 tens + 4 tens = 5 tens
- Step 3 Add the hundreds.
3 hundreds + 2 hundreds = 5 hundreds
- Step 4 Add the thousands.
2 thousands + 4 thousands = 6 thousands
- $2314 + 4240 = 6554$

Step 2 Add the tens. 7 tens + 3 tens + 1 ten = 11 tens
Rename the tens. 11 tens = 1 hundred and 1 ten

$$\begin{array}{r} 5678 \\ + 1235 \\ \hline 13 \end{array}$$

Step 3 Add the hundreds.
6 hundreds + 2 hundreds + 1 hundred = 9 hundreds

$$\begin{array}{r} 5678 \\ + 1235 \\ \hline 913 \end{array}$$

Step 4 Add the thousands.
5 thousands + 1 thousand = 6 thousands

$$\begin{array}{r} 5678 \\ + 1235 \\ \hline 6913 \end{array}$$

<p>Using the bar to find missing digits.</p> <p><i>It is important for children to use the bar in this way to encourage the use of it to aid with problem solving.</i></p>	<p>This is not a form of getting the correct answer but helping to guide children to the correct operation.</p> <p>Alison jogs 6,860 metres and Calvin jogs 5,470 metres. How far do they jog altogether?</p> <table><tr><td colspan="2">?</td></tr><tr><td>6860m</td><td>5470m</td></tr></table>	?		6860m	5470m
?					
6860m	5470m				

Subtraction

To subtract with numbers up to four digits including exchanging when children are secure.

Again children need to use dienes to support their learning.

$$\begin{array}{r}
 3437 \\
 - 2016 \\
 \hline
 1421
 \end{array}$$

Step 1 Subtract the ones.
7 ones - 6 ones = 1 one

Step 2 Subtract the tens.
3 tens - 1 ten = 2 tens

Step 3 Subtract the hundreds.
4 hundreds - 0 hundreds = 4 hundreds

Step 4 Subtract the thousands.
3 thousands - 2 thousands = 1 thousand

There aren't enough ones.

$$\begin{array}{r}
 5280 \\
 - 3169 \\
 \hline
 2111
 \end{array}$$

	2	7	5	4
-	1	5	6	2
	1	1	9	2

Using the bar to find missing digits.

It is important for children to use the bar in this way to encourage the use of it to aid with problem solving.

There are 3,160 books in a shop. 1,226 are in English and the rest are in French. How many French books are there?

Multiplication

Children to know all times tables to 12 x 12.

Ladder method to be used with children multiplying both two and three digits by a one digit number.

$$\begin{array}{r}
 314 \\
 \times 3 \\
 \hline
 12 \quad (3 \times 4) \\
 30 \quad (3 \times 10) \\
 + 900 \quad (3 \times 300) \\
 \hline
 942
 \end{array}$$

$$\begin{array}{r}
 473 \\
 \times 2 \\
 \hline
 \hline
 \end{array}$$

Multiplying using the bar.

A computer costs 5 times as much as a television. The television costs £429.

Cost of the computer

How much does the computer cost?

?				
£429				

Division

Dividing up to three digit numbers by a one digit number using short division.

Only when the children are secure with dividing a two digit number should they move onto a 3 digit number.

	H	T	U	
	0	2	5	r1
5	1	¹ 2	² 6	

Dividing using the bar.

Desmond and Melissa collect cards. They have 192 cards in all. Melissa has three times as many cards as Desmond. How many cards does Desmond have?

192			
D = ?	M	M	M

Year 5

Addition

Adding numbers with more than 4 digits including decimals

Using place value charts are key to this as well as place value counters to help with the decimals.

$$\begin{array}{r} \pounds 23.59 \\ + \pounds 7.55 \\ \hline \pounds 31.14 \end{array}$$

$$\begin{array}{r} 23481 \\ + 1362 \\ \hline 24843 \end{array}$$

$$\begin{array}{r} 19.01 \\ 3.65 \\ + 0.7 \\ \hline 23.36 \end{array}$$

Using the bar to find missing digits.

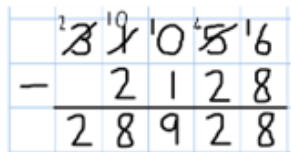

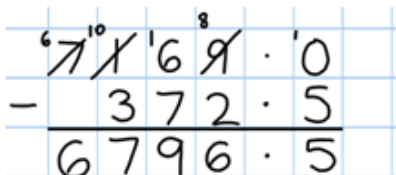

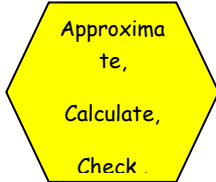

It is important for children to use the bar in this way to encourage the use of it to aid with problem solving.

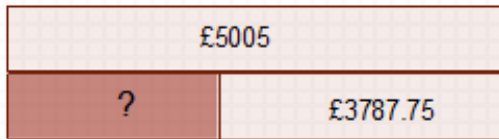

This is not a form of getting the correct answer but helping to guide children to the correct operation.

MacDonalds sold £9957.68 worth of hamburgers and £1238.5 worth of chicken nuggets. How much money did they take altogether?

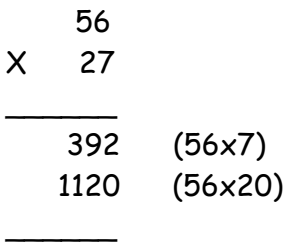

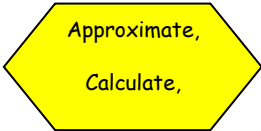

?	
£957.68	£1238.5

Subtraction 6

<p>Subtract with at least four digit numbers including two decimal places.</p> <p><i>Include money, measures and decimals ensuring that children do this practically before the abstract.</i></p>	<p>Subtract with decimal values, including mixtures of integers and decimals, aligning the decimal point.</p> <div>   </div> <div>  </div>
---	--

<p>Using the bar to find missing digits.</p> <p><i>It is important for children to use the bar in this way to encourage the use of it to aid with problem solving.</i></p>	<p>A whole to Lapland costs £5005 for a family of four, the Smith's have only saved £3787.75, how much money do they still need to find?</p> <div>  </div>
--	--

Multiplication

<p>Multiplying up to four digit numbers by two digits using long multiplication.</p> <p><i>Children need to be taught to approximate first, e.g. for 72 x 38,</i></p>	<div>  </div> <div>  </div>
---	---

they will use rounding:
72 x 38 is approximately
 $70 \times 40 = \mathbf{2800}$, and use
the approximation to
check the
reasonableness of their
answer.

1512

- Explain that first we are multiplying the top number by 7 starting with the ones. (any carrying needs to be done underneath the numbers).
- Now explain that we need to put a 0 underneath—explain that this is because we are multiplying the number by 20.. (2 tens) which is the same as multiplying 10 and 2.
- Now add the 2 numbers together to give you the answer.
- This will need lots of modeling to show the children.

	3	6	5	2
x				8
<hr/>				
2	9	2	1	6
	5	4	1	

	1	2	3	4
x			1	6
<hr/>				
7	4	0	4	
<hr/>				
1	2	3	4	0
<hr/>				
1	9	7	4	4

(1234 x 6)

(1234 x 10)

Using the bar to support
multiplication.

The cost to run a sports centre is £4375 a week, how much would it cost to run for 16 weeks?

Division

Diving with up to four digit numbers by one digit including numbers where remainders are left.

$$\begin{array}{r} 0663r5 \\ 8 \overline{) 5350^2 9} \end{array}$$

Short division with remainders: Now that pupils are introduced to examples that give rise to remainder answers, division needs to have a real life problem solving context, where **pupils consider the meaning of the remainder and how to express it**, ie. as a fraction, a decimal, or as a rounded number or value , depending upon the context of the problem.

Using the bar to support division problems.

Bar Model to support understanding of problem solving:

Frank has 4920 apples. He needs to put them into baskets of 40. How many baskets does he need?

Year 6

Addition

Adding several numbers with up to three decimal places.

$$\begin{array}{r}
 23.361 \\
 9.080 \\
 59.770 \\
 + 1.300 \\
 \hline
 93.511 \\
 212
 \end{array}$$

Adding several numbers with different numbers of decimal places (including money and measures):

- Tenths, hundredths and thousandths should be correctly aligned, with the decimal point lined up vertically including in the answer row.

Empty decimal places should be filled with zero to show

Adding using the bar.

Jack went on holiday. His flight cost £70.50, the hotel £1295 and spending money £427.89. How much did Jack spend on his holiday?

?		
£70.50	£427.89	£1295

Subtraction

Subtracting with increasingly large and more complex numbers and decimal values.

$$\begin{array}{r}
 180699 \\
 - 89949 \\
 \hline
 60750
 \end{array}$$

Very important to use in a range of contexts- measures and money.

$$\begin{array}{r}
 1015.419 \text{ kg} \\
 - 36.080 \text{ kg} \\
 \hline
 69.339 \text{ kg}
 \end{array}$$

Using the bar for subtraction.	<p>Chloe wants to buy a new car for £6450. She has £4885.87 in her savings account. Her Dad gives her £150 for her birthday. How much more money does she need to save?</p> <table><tr><td colspan="3">£6450</td></tr><tr><td>£4885.87</td><td>£150</td><td>?</td></tr></table>	£6450			£4885.87	£150	?
£6450
